FAST FACTS ABOUT YOUR PLAN

There are many great benefits to being a participant in the Comoto Holdings, Inc. 401(k) Profit Sharing Plan & Trust. Among those benefits is exceptional customer service— online or by phone. In fact, you can count on your company and Fidelity to help support you every step of the way.

Best practices to consider:

- **The impact of an early start.** Your decision to start today could give you quite a bit more at retirement than starting five years from now.
- **Contribute as much as you can.** That amount can take you a long way toward reaching your financial goals.
- **Do what you can afford.** Start at a number that feels comfortable to you. You can always change it later. The important thing is to invest what you can afford and start right away.
- **Invest more in your plan, pay less in taxes.** Your pretax contributions come out of your pay before income taxes are taken out. You can actually lower your current taxes by investing in the plan today.

Find out how simple it can be to enroll, manage your account, and take advantage of what your company and Fidelity have to offer.

- Look inside for:
  - **Frequently Asked Questions** - The basic details of your plan including how much you can contribute and when you can take withdrawals.
  - **Investment Options** - Pick at least one investment option to get started, then consider the whole spectrum as you get more comfortable with planning.
  - **Resources for Staying on Track** - To help you meet your retirement goals, the plan offers a comprehensive communications program and planning tools to help you stay on track.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the date indicated. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

Investing in bonds involves risk, including interest rate risk, inflation risk, credit and default risk, call risk, and liquidity risk.

Stock markets are volatile and can fluctuate significantly in response to company, industry, political, regulatory, market, or economic developments. Investing in stock involves risks, including the loss of principal.

*Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.*

# Additional Investment Options

**Fidelity® Personalized Planning & Advice** is a professionally managed account that helps ensure that your investments are managed through the ups and downs of the market. The service creates model portfolios that seek to enhance growth and manage risk, while keeping your account aligned with your goals. For more information about Fidelity® Personalized Planning & Advice, log onto NetBenefits® at [NetBenefits.com](https://www.fidelity.com/netbenefits).

Fidelity® Personalized Planning & Advice at Work is a service of Strategic Advisers LLC, a registered investment adviser and a Fidelity Investments company, and may be referred to as “Fidelity,” “we,” or “our” within. For more information, refer to the Terms and Conditions of the Program. When used herein, Fidelity Personalized Planning & Advice refers exclusively to Fidelity Personalized Planning & Advice at Work. **This service provides advisory services for a fee.**

**Target Date Funds** offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don’t want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Investment Options to the left have potentially more inflation risk and less investment risk			Investment Options to the right have potentially less inflation risk and more investment risk

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment’s name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.
